Search-ability! New Online Catalog Boosts Your Finding Power

What you've been wanting is here at last: an online catalog as smart as you are! As of March 1, the library is delighted to debut BiblioCommons, an intuitive, fun-to-use, powerful new catalog that makes finding library materials and managing your account a snap.

In the library and on our website, you'll be searching for materials more effectively and placing holds on or renewing items without hassle. If you want to, you can share your reading lists and reviews with other patrons and keep "shelves" of titles you've read or want to read. And after you sign up to use BiblioCommons, you will no longer have to enter your library card number to access the library's collection and databases from home.

BiblioCommons is *much* easier to use and better at finding what you want than our old system. Take a few minutes during your next visit to learn how the library has taken the catalog to the next level.

"MEET BIBLIOCOMMONS" PARTY MARCH 1-6

We want you to love the new catalog as much as we do, so we're throwing a little meet-and-greet for BiblioCommons during the first week of March. Starting **Tuesday, March 1, through Sunday, March 6**, we'll have a "Meet BiblioCommons" station where you can get help signing up to use BiblioCommons (and get a free video rental coupon as a reward) and take advantage of a two-minute training session if you wish. Look for the Meet BiblioCommons table in the Readers' Services area.

Can't make the party? It's easy to sign up with BiblioCommons online, but you are always welcome to ask any member of the library staff for assistance.

Sponsored by the Friends of the Glencoe Public Library, all films in this series are screened at the Woman's Library Club, 325 Tudor Court.

GET LOW

Monday, March 21, at 1:00 & 7:00 p.m.

100 minutes. Rated PG-13.

Long-time hermit Felix Bush is made to look presentable for his funeral. His hair is cut, arrangements are made, the funeral is planned. What's unusual about the situation is that Felix is still alive. When a contemporary dies, Felix decides to "get low," get down to business, and plan his funeral so he can enjoy it while he's still alive. Based on the real story of Felix "Bush" Breazeale, a bachelor in Roane County, Tennessee, who in 1938 decided to arrange his own funeral, *Get Low* features a typically memorable performance from Robert Duvall as the hermit who might just have an ulterior motive for orchestrating his own grand send-off. "It affords Duvall a terrific role, harking back to his screen debut as one of literature's great loners, Boo Radley." — Ann Hornaday, *Washington Post*.

MADE IN DAGENHAM

Monday, April 18, at 1:00 & 7:00 p.m.

113 minutes. Rated R.

It's 1968 at the Ford plant in the east London suburb of Dagenham. The female sewing machinists at the plant go on strike in reaction to their work being classified as unskilled. Ultimately, they will fight not only for a raise, but also for equal pay with male employees of the plant. Sally Hawkins (*Happy Go Lucky*) plays Rita, initially reluctant but eventually a determined spokesperson for the striking machinists. "A spirited look — well written, beautifully acted, full of uplift — at lovably cheeky heroines on the march for a little respect." — Amy Biancolli, *Houston Chronicle*.

RABBIT HOLE

Monday, May 16, at 1:00 & 7:00 p.m.

92 minutes. Rated PG-13.

Rabbit Hole, directed by John Cameron Mitchell and written by David Lindsay-Abaire, adapting his Pulitzer Prize-winning play, stars Nicole Kidman and Aaron Eckhart as parents attempting to cope with the accidental death of their four-year-old son eight months before. Becca (Kidman) wants to move away from their comfy middle-class suburban New York home and all its reminders of little Danny. Howie (Eckhart) wants to surround himself with everything that summons up his son. "*Rabbit Hole*, directed with grace and surprising humor by John Cameron Mitchell, is a delicate tale that shares a great deal of the hurt of Robert Redford's *Ordinary People*." — Lisa Kennedy, *Denver Post*.

TECHNOLOGY TUESDAYS

Christmas came and you found a Nook or Sony Reader under your tree. Or maybe one of the nights of Hanukkah brought you a brand new iPad or iPhone. If you'd like to use the library for your ebooks but you don't know how, our March **eReaders at the Library** program will present all the options for checking out eBooks from the library to any of these devices. Meanwhile, you've heard the hype about the iPad, but do you need one? Once you have an iPad, what kind of programs are available? Are there any other options for tablet computing besides the iPad? These are among the questions that we'll try to answer at our April **iPads and Tablet**

Computing program. We'll examine the strengths and weaknesses of tablet computers and we'll look at some of the best available apps. In

May, we'll repeat our **Power Facebooking** class, where we will discuss some of the ways to take full advantage of the social network. Facebook continues to evolve, and we'll take an in-depth look at the new groups feature, fan or business pages, privacy settings, lists, and more.

Technology Tuesdays is open to all ages and skills, although a basic knowledge of computers (how to use a mouse and keyboard, how to get on the Internet) is required. Each class is taught by Mike Gershbein and will last one hour.
