Did You Know?

BANNED BOOKS WEEK IS SEPTEMBER 30 – OCTOBER 6

Banned Books Week is an annual event celebrating the freedom to read and the importance of the First Amendment. Observed during the last week of September each year, it draws attention to the harms of censorship by spotlighting actual or attempted restriction of access to books across the United States. Banned Books Week is sponsored by the American Booksellers Association, the American Booksellers Foundation for Free Expression, the American Library Association, the Association of American Publishers, the American Society of Journalists and Authors, and the National Association of College Stores, and is endorsed by the Library of Congress Center for the Book.

Every year, the Glencoe Public Library observes Banned Books Week with displays and lists of books that have been banned or challenged in libraries and schools across the United States. Look for our displays, pick up a banned books list (some of the titles will surprise you), attend the September 30 staged reading (see page 2), or—best of all—become a banned books reader.

THE LIBRARY HAS A NEW MAGNIFIER

If you have low vision or simply need to read something with very small print, try our new eye magnification system. It's stationed in the Reference Room and was the generous donation of Keki Bhote.

ALL ABOUT EBOOKS

Twenty-first century booklovers enjoy an ever-expanding range of paperless reading options. It's exciting for the library to be able to provide free ebooks for your ereaders, mobile phones, and tablet computers. The library currently offers two sources for downloadable ebooks: **My Media Mall** for a broad selection of titles, most of them available on a one-book, one-user basis, and **Freading** for more than 20,000 always-available titles.

Most of you who have used our digital collections have been enthusiastic about them, but certain questions do tend to recur:

Why aren't more ebooks available for download?

The titles available for library download are limited by the publishers that sell the titles. Of the "Big Six" publishers, only two currently offer their books for library downloading. Those two often restrict the number of times that an e-book can be "checked out" or have raised their prices substantially.

Why do I have to wait for a digital copy of a book?

It's just a digital file that I should be able to download immediately!

It's because some publishers want to simulate the "one copy, one user" model of physical (nondigital) library materials. When we can, we purchase additional My Media Mall copies for checkout by Glencoe residents only. You'll never have to wait if you choose from our new Freading database, which does not require holds.

What's the difference between My Media Mall and Freading?

My Media Mall offers ebooks from big publishers. The titles can download to almost any device, but you may have to wait to "check out" a copy. Although Freading has a shorter list of titles, they are always available. However, Freading titles are not compatible with Kindles.

Why is it so difficult to get an ebook onto my device?

Publishers are understandably concerned about piracy. To safeguard their profits, they have devised ways to restrict your ability to move ebooks between devices and to access them beyond your allotted checkout time. To further complicate matters, Kindle, iPad, and Nook are built on different technologies. This makes it more challenging to service all devices.

To explore our ebook providers, visit the library's website, select "Books, Movies, and Music" from the list in the blue box on the left side, and then select "Download Audiobooks and Ebooks." If you're having trouble, bring in your device and ask a reference librarian for help.

Library Staff News

MEET MAUREEN LIEBENSON

I'm a fairly new kid on the block here at GPL. I joined the staff less than a year ago as a part-time Reference Librarian/Reader's Advisor. Yet I've felt right at home from day one.

The patrons and the staff are at the top of the long list of things I love about working here. Happy hellos are heard constantly during the day. Books and films and music are discussed regularly and with excitement. It is a very upbeat place to work.

The long and winding road to Glencoe began for me at Indiana University, where I earned my BA in journalism and English literature and my MLS. Following grad school, I worked in New York City as editor of R. R. Bowker's *Children's Books in Print*. After returning to my native Illinois, I joined World Book Encyclopedia, where I was managing editor of new publications. Eventually I stopped being a commuter and became a carpooler, shuttling my then sixth-grade son James (who will be a freshman this fall at Washington University in St. Louis) and friends to their after-school activities. Working part-time as a librarian, first in Highland Park and now Glencoe, has been a perfect fit.

My husband Donald, who grew up in the area, and I go to a lot of movies, and we walk to the Botanic Garden on weekends. During the week, I often chauffeur our 12-year-old golden retriever Hayley to her favorite haunts, such as Rosewood Beach in Highland Park, the trails at Fort Sheridan, and, in the summer, the patio at Glencoe Roast. Also in the summer, Donald and I go to Cubs Game (season ticket holders for 20+ years) and to Ravinia, although we can also hear the music from our house. Yes, we live that close, so next summer, if you need a place to park during a concert, you know where to find me!
